REASONS
...WHY THE...
BUFFALO SCALES
Merit the Public Confidence.
THEY ARE CONSTRUCTED ON MATHEMATICAL
principles, well known and long tried principles.
They are made by the most skillful workmen, of the
best materials, and with the latest improved machinery, and
are hence necessarily uniform in construction and also accurate
and durable.
Their reputation as first class scales is firmly established,
and they have been thoroughly tested, and are in use by
many of the leading railroads, the largest grain and iron
houses, and most prominent merchants in this and other countries.
In our own city, where they are best known, there are
now in use more than four times as many as of all other
scales together.
They have been compared successfully with all other scales
of known merit, and have been awarded First Premiums at all
the International Exhibitions, the St. Louis Mechanics' Association,
the State Fairs of New York, Pennsylvania, Ohio,
Michigan, Indiana, Illinois, Iowa, Maryland, Virginia, Texas,
and at the Centennial Exhibition, at Philadelphia, 1876, we
were the only scale makers who challenged competition and
submitted to the test.
The manufacturers are responsible, and every scale is
warranted to give entire satisfaction.
We have just received an Invoice
ONE WITH THE PATENT COMBINATION
BEAM.
